### *“Vaccines as a Major Risk Factor for Autoimmune Diseases, Brain Damage, and Death”*

Dr. Moskowitz will present key points from this book “Vaccination, A Reappraisal.” He will discuss immunity, explain how vaccines work, the risk factors involved, and how they can cause autoimmune disease, brain damage and death. He will then go into how homeopathy is addressing these issues. He will present a few cases illustrating the use of homeopathy in brain damage and the use of homeopathy after individual vaccines.
